Hey kids! Today we're in week 5 of our Ephesians series, and we going to learn about roots. You know, like roots on a tree. They're pretty important, right? A tree can't grow if it doesn't have good roots. The roots are how a tree drinks up the water so it can grow up big and strong. The deeper the roots, the healthier the tree! It works the same with us.

We need a good root system so we can grow big and strong

That's what Paul says in the book of Ephesians. It happens to be our memory verse:

***Ephesians 3:17** Then Christ will make his home in your hearts as you trust in him. Your roots will grow down into God's love and keep you strong.*

The first root is _____

The second root is _____

The third root is _____
