

SCORECARD

SG LEADER ESSENTIALS

Grade yourself on each of these five leader essentials below. Then use the box to rank them, from your strongest (1) to your weakest (5).

1

Invite personally.

Don't rely on announcements at church to build your group. The best way to grow your group is through personal invitations.

2

Involve everyone.

Encourage others to participate by facilitating the conversation, hosting a night, leading prayer, bringing snacks, or planning serving opportunities.

3

Influence spiritual growth.

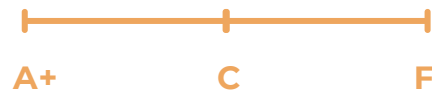

Challenge others to create and keep personal spiritual disciplines such as time in God's Word, prayer, serving and disciple making.

4

Invest outside of group time.

Pray for them, connect socially, check in, and step in (as a group) to serve when the need arises.

5

Inspire multiplication.

Develop expectations that someday your group will reproduce.
